

Chapter 1 Test Study Guide

Team Test

- Graph points
- Operations with integers
- Operations with integers, fractions & decimals
- Putting rational numbers on a number line
- Proportion problems
- Graphing information (like in 1.1.1)
- Extending a pattern (shapes & number sequences)

Individual Test

- Extending a pattern (shapes and number sequence) (see 1.1.2)
- Solving proportion problems (see 1.2.1 & 1.2.2)
- Placing points on a graph (see 1.1.1)
- Putting rational numbers (fractions, decimals, integers) on a number line
- Operations with integers, fractions & decimals
- Create equivalent fractions
- Graph points
