

Create 5 addition problems that  
are equivalent to 4

## **Adding Integers w/ Same Sign**

Essential Question: What are the three tools you can use to add integers?

## Creating Zero Pairs

## Creating A Value

## Showing Addition

Ex 1

$$-4 + -2$$

Ex 2

$3 + 2$

## Use Counters to Add

$$4 + 3$$

$$-2 + -3$$

$$-5 + -1$$

## Use a Number Line to Add

$$5 + 2$$

$$-2 + -3$$

$$-5 + -1$$

## Adding Integers (SAME SIGN)

$$-4 + -2$$

1) Find the sum of the absolute values.

$$4 + 2$$

6

2) Use the same sign as the integers.

-6

Ex 5      $-3 + (-6)$

Use ANY Method to Add

$$-6 + -7$$

$$5 + 2$$

$$-203 + -25$$

---

Does addition always make a number smaller?

Is a negative and a negative always positive?

---

## Summary
